## Experience

**Faff Games LLC, Madison, WI**

*Founder, Developer June 2018 -- Present*

- Develop indie games aimed at virtual reality (C#)
- Develop a custom game engine with 3D graphics and VR, physics, content parsing, and a unique peer-to-peer networking system (C#)

**TDS Telecom, Madison, WI**

*Contractor Full Time December 2017 -- June 2018*

- Develop internal web applications for performing provisioning and diagnostics on a large telecom network (Python, Flask, Django, OracleDB, Elasticsearch)
- Assist with the design and architecture of the system which was composed of microservices

**Human Head Studios, Madison, WI**

*Game Developer May 2017 -- December 2017*

- Develop games, netcode and infrastructure (C# and Unity)
- Focus on architecture and networking (C#, Lidgren, PSQL)

**University of Wisconsin Madison, Madison, WI**

*Researcher October 2011 -- May 2017*

- Develop software that efficiently utilizes multiple network interfaces (C/C++)
- Develop infrastructure to configure and monitor deployments (Fullstack/Python, MySQL)
- Design algorithms to allow vehicles to effectively leverage city wide mesh networks

## Skills

**Software:** Windows, Linux, Visual Studio, PyCharm, Eclipse

**Languages:** C#, Python, C, C++, Java, JavaScript, HLSL, GLSL, HTML, CSS, MySQL, PSQL

## Education

**University of Wisconsin–Madison**

*B.S. Computer Engineering and B.S. Computer Science, May 2013*

*M.S. Computer Engineering, May 2017*

**Academic Projects (Graduate)**

MRPC: A networking protocol designed for IoT and mesh networking protocols with full libraries for Python, ESP8266 (C/C++), and Android (Java)

DECO: A Python library that simplifies parallel programming using decorators

EDSM: A framework for distributed shared memory application development (C++)
